It takes a nation to become strong. Our fight is for not only our past, but our future. The preservation of our ancestors is the preservation of our people. To represent our nation would be an honor. I have worked with many diverse people and built a foundation for success, with honesty; integrity; and clear communication. To be a team leader, one has to understand that our world is changed and our ideas have to change as well. There is an "I" in team as it takes a group of Individuals that are Interdependent upon each other to Improve our lives. (Individuals; Interdependent; Improve)
